ICON ROTATE

Built for evolving classrooms, Icon Rotate features an innovative rotating design, ergonomic comfort, and durable construction. Empowering seamless interaction and flexible learning experiences. Icon Rotate brings mobility and comfort together with a rotating bench design that supports interactive learning while maintaining a clean, contemporary classroom layout.

COMPUTER LAB

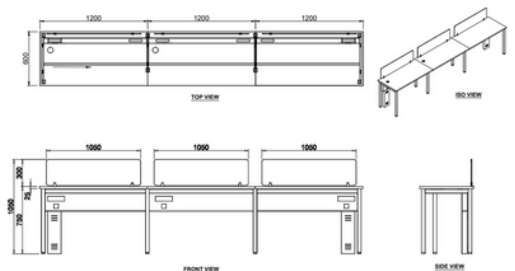

Designed for modern computer labs, this furniture range combines ergonomic comfort, efficient cable management, and durable construction to support focused, long-hour digital learning.

CEON

CEON is a thoughtfully designed computer lab furniture system created to support modern digital learning environments. It offers spacious work surfaces for comfortable computer use, along with dedicated storage space for CPUs, accessories, and personal items—ensuring a clean, organized workstation. Built with ergonomic proportions, durable materials, and efficient space planning, CEON enhances comfort, improves focus, and supports long hours of productive learning in computer labs and training centers.

ZENITH - M

ZENITH - M is a modern collaborative workstation designed for focused teamwork and efficient learning environments. Featuring a spacious work surface, integrated power access, and a clean structural design, it supports seamless multitasking and organized workflows. Built with durable materials and ergonomic proportions,

ZENITH - M ensures comfort during extended use while maintaining a refined, professional aesthetic. Ideal for classrooms, training rooms, and collaborative lab spaces.

CONNECT VALUE

Connect Value classroom desks are thoughtfully designed to support everyday learning with essential comfort, durability, and practical functionality. Featuring a spacious writing surface, a basic modesty panel, and a convenient bag-hanging provision, Connect Value helps keep classrooms organized and student-friendly. Built using cost-efficient yet sturdy materials with a clean, simple design, it offers dependable performance and easy adaptability to different classroom layouts
